With any method, the reverse image search results appear; you may have to click on a More sizes option above to view only the images. You will have options to narrow your query, such as finding animated GIFs, clip-art equivalents or looking for the color scheme used in the original image. Google Lens also offers a reverse image search option. Lens has its own app, but it is also part of the Google, Google Photos and Google Assistant app, on iOS and Android. However, Lens is more about helping you perform tasks, such as instant translation, identification of things, or finding a product to buy, than to find a source image. Bing Vision Search on Mobile Bing Visual Search as viewed in Safari on iOS That other great search engine, Microsoft Bing, also makes reverse image searches, but calls it "visual search". Click the Bing camera icon on any mobile browser or the Bing app. A pop-up menu will allow you to take a photo, browse your photo library or browse third party services. Click to find photos stored in external services such as iCloud Drive, Google Drive and Dropbox. The latest versions of the Bing iOS app(Opens in a new window) and Android(Opens in a new window) allow you to open a photo and search the image immediately. You can upload a photo of your camera roll, scan a QR code, or point your camera to text or math problems (packagies!).
